7. HANDLING AND STORAGE

7.1 Precautions for Safe Handling:

Avoid generating excessive dust. Avoid excessive contact with product. Use appropriate protective clothing as indicated in Section 8. Wash hands after use.

7.2 Conditions for Safe Storage:

To guarantee quality avoid heat, moisture, and strong odors during storage. Pellets should not be exposed to temperatures above 20 °C (68 °F) since it is possible that gases will be formed from hop constituents. The resulting pressure increase may cause bursting of the foils and exposure of the pellets to air, resulting in oxidation and a considerable deterioration of quality. Suitable storage containers are thick gauge laminated foil bags, stainless steel, and lacquered mild steel.

7.3 Specific End Uses:

The substance is manufactured from food ingredients and it is for use as a processing aid during the manufacture of foodstuffs. It is therefore not subject to registration via REACH (Regulation (EC) No. 1907/2006) for such uses. It should be used in accordance with applicable food legislation
